CHRISTIAN MORAES

Software & AI Engineer

Profile

Passionate about the intersection of code, hardware, artificial intelligence, and business efficiency. I specialize in full-stack development, machine learning, and systemic automation, building scalable solutions to solve real-world problems. I am defined by high professional standards and critical thinking. I value hands-on experience and the principles of each organization.

Portfolio & GitHub - Here

Projects

- **Neural Time Series Forecaster GRU/LSTM** *(for UCU - Py, TS, TF)*
- **KineticGuard ACWR** *(iOS/Swift)*
- **C-PhysEngine 2D** *(C/C++)*
- **Vision Image Classifier CNN** *(for CS231n - Py, TF)*

Experience

COO - Co-Founder

AgentBooster — Dubai - Remote

- Process automation with n8n and Python; full-stack development and databases
- Machine Learning models with TensorFlow and Python
- LLM agents with Python and LangChain, prompt engineering, and function calling
- RAG with embeddings and vector databases in PostgreSQL using pgvector and RLS
- Integrations with APIs/webhooks/MCP and CRMs (Salesforce, HubSpot, Zoho)
- Deployment/hosting of microapps, components with JavaScript, and Docker
- Analysis of GPT, Claude, Gemini, and Grok models; and AI audiovisual content generation
- Automation and Gen-AI Consultant

March 2025 - April 2026

Startup

Risolvia — Spain - Remote

- Front-end, back-end, and AI agent development for legaltech
- RAG, embeddings, and vector database (pgvector in PostgreSQL/Supabase)
- GDPR (consent), reCAPTCHA v3/CSS, and hardening
- Research and compliance with Uruguayan and Spanish law

July 2025 - January 2026

CTO

MyEcomProject LLC — Santiago, Chile

- Sales, call/in-person closing, objection handling, and consumer psychology
- Design and management of advertising campaigns for diverse clients across Meta, Google, and TikTok (budgets, segmentation, A/B testing)
- Tracking and tagging (UTM, conversion events) with reporting and KPIs
- Sales funnel direction and web integrations (landing pages, offers, storytelling)
- Design of acquisition and nurturing workflows (email, CRM, lead flows)
- Creation and direction of organic and paid media content

April 2024 – October 2025

Skills

Soft Skills	Technical Skills
Communication	AI Engineering
Negotiation	ML & Deep Learning
Adaptability	Full-Stack Development
Problem Solving	Business Intelligence
Teamwork	Cloud Computing
Leadership	Algorithm Optimization
